**Personal Social Health and Economic Education including
Relationships Education and Health Education**

Name of school: Beresford Memorial First School

Date of policy: December 2021

Members of staff responsible for PSHE Education: Mrs Tatton

Line Manager: Headteacher – Mrs Quinn

Review date: 2024

Introduction

At Beresford Memorial First School, we believe that every child is unique and special and valued by God.

Vision and Values Statement

Our vision at Beresford Memorial First School is to inspire all children to flourish and achieve their God given potential, whilst loving and learning together with God.

Our School Christian Values are **Respect, Kindness, Creativity, Hope, Honesty** and **Courage**.

Context

- Children are of mixed ability with a range of health and social needs.
- As a Church school, Christian principles and values are paramount to the ethos of the school.
- The school is very much a community school, as the majority of the children are in the catchment area and live in close proximity to the school.
- There is evidence of low aspirations of many parents and a high level of families who have remained in the area for generations. Incidences of social service, educational welfare service and school medical service involvement with families is higher than in any other area of the town. Therefore, the health and social needs of the pupils is great.

1. How this Policy was developed

This policy was written by Mrs Tatton PSHE Lead and developed in consultation with parents, teachers and other school staff, governors and the pupils at Beresford Memorial First School. We have listened and responded to all views to help strengthen the policy, ensuring that it meets the needs of all of our pupils. It has been approved by the school's governing body.

2. Legal requirements of schools

It is now a statutory requirement for primary schools to deliver Relationships Education and the Department of Education (DfE) encourages schools to deliver Sex Education that ensures both boys and girls are prepared for the change's adolescence brings and – drawing on knowledge of the human life cycle set out in the National Curriculum for science – how a baby is conceived and born. Health Education is also statutory in all schools.

We at Beresford Memorial First School acknowledge that under the Education Act 2002/Academies Act 2010 all schools must provide a balanced and broadly-based curriculum and wish to have a policy that not only covers the statutory content but covers all aspects of our Personal, Social, Health Economic (PSHE) education provision.

3. What Personal, Social, Health and Economic (PSHE) education including Relationships Education, is:

Our PSHE education, including statutory Relationships and Health education, as recommended by the DfE, provides a framework through which key skills, attributes and knowledge can be developed and applied. This promotes positive behaviour, good mental health and wellbeing, resilience and achievement, helping children to stay safe online, develop healthy and safe relationships, making sense of media messages, challenging extreme views and having the skills and attributes to negotiate and assert themselves now and in the future.

The school's PSHE provision supports the school's aims of developing confident citizens and successful learners who are creative, resourceful and able to identify and solve problems. The social and emotional development of pupils is embedded throughout the entire school's curriculum and culture. The school has a powerful combination of a planned thematic PSHE program, built around a spiral curriculum of recurring themes, designed to:

1. Give pupils the knowledge and develop the self-esteem, confidence and self-awareness to make informed choices and decisions;
2. Encourage and support the development of social skills and social awareness;
3. Enable pupils to make sense of their own personal and social experiences;
4. Promote responsible attitudes towards the maintenance of good physical and mental health, supported by a safe and healthy lifestyle;
5. Enable effective interpersonal relationships and develop a caring attitude towards others;
6. Encourage a caring attitude towards and responsibility for the environment;

7. Help our pupils understand and manage their feelings, build resilience and be independent, curious problem solvers;
8. Understand how society works and the laws, rights and responsibilities involved.

We know there is a proven link between pupils' health and wellbeing, and their academic progress. Crucial skills and positive attitudes developed through comprehensive Personal, Social, Health and Economic education are critical to ensuring children are effective learners.

At Beresford Memorial First School, our Christian Values of **Respect, Kindness, Creativity, Hope, Honesty** and **Courage** underpin our teaching of PSHE and Relationships Education. Our children are encouraged to use these values in their approach to their daily life.

Spiritual, Moral, Social and Cultural (SMSC) Development

Spiritual, Moral, Social and Cultural development is crucial for individual children, staff and for society and it is our aim to create good local, national and global citizens, who develop good character, resilience and determination.

For our pupils, we will provide and maintain opportunities to explore and develop their own values and beliefs, spiritual awareness, high standards of personal behavior. They will also be guided to develop a positive, caring attitude towards other people, an understanding of their social and cultural traditions and an appreciation of the diversity and richness of other cultures. The promotion of pupils' spiritual, moral, social and cultural development is not only promoted throughout the curriculum subjects but also through our day-to-day school routines, assemblies, extra-curricular activities, our Beresford Memorial School Vision, Values and Mission statement.

British Values at Beresford Memorial First School

We actively promote the fundamental British values of democracy, the rule of law, individual liberty, and mutual respect and tolerance of those with different faiths and beliefs.

These values were first set out by the government in the 'Prevent' strategy in 2011.

Democracy	Democracy can be seen as a state of society characterised by equality of rights and privileges. It can also refer to our nation's electoral systems.
Individual Liberty	The free exercise of rights generally seen as outside Government control.
The Rule of Law	All people and institutions are subject to and accountable to law that is fairly applied and enforced.

Mutual Respect and Tolerance of others	The regard for an individual's dignity. <i>Mutual respect and tolerance of those with different faiths and beliefs and for those without faith.</i>
---	---

We ensure that the fundamental British values are promoted through our school vision statement, our development of SMSC, our PSHE whole-school approach and through everyday aspects of school life.

4. How PSHE education, including Relationships Education, is provided and who is responsible for this

At Beresford Memorial First School we use SCARF, a comprehensive scheme of work for PSHE and Wellbeing education. SCARF stands for Safety, Caring, Achievement, Resilience, Friendship. Coram Life Education & SCARF are the UK's leading charity provider of PSHE and wellbeing education in primary schools.

An overview of SCARF can be found in our appendices. It covers all of the DfE's new statutory requirements for Relationships Education and Health Education, including non-statutory Sex Education, and the PSHE Association's Programme of Study's recommended learning opportunities, as well as contributing to different subject areas in the National Curriculum.

We follow the six suggested half termly units and adapt the scheme of work where necessary to meet the local circumstances of our school, for example, we may use our local environment as the starting point for aspects of our work.

Our PSHE subject lead, Mrs Tatton works in conjunction with teaching staff in each year group and is responsible for ensuring that all staff are equipped with the knowledge, skills and resources to deliver PSHE education confidently. Teachers and Teaching Assistants who deliver PSHE and RE can access a range of teaching support resources within SCARF, including guidance documents and teacher training films. Any teacher wanting further support should contact the PSHE subject lead in the first instance to discuss their training needs.

Class teachers / teaching assistants, follow the suggested six half termly units provided by SCARF for each year. Lessons can be a weekly standalone PSHE lesson or be cross curricular. The lesson plans list the specific learning objectives for each lesson and provide support for how to teach the lessons; class teachers / teaching assistants and our PSHE lead often discuss this on an informal basis.

We have chosen SCARF as our PSHE resource because the lessons build upon children's prior learning; we have assessed the content and feel that it is relevant and sensitive to the needs of the children. There is planned progression across the SCARF scheme of work, so that children are increasingly and appropriately challenged as they move up through the school. Assessment is completed by the teacher or teaching assistant for the whole class, either using the SCARF Summative Assessment 'I can...' statements, alongside the lesson plan learning outcomes to demonstrate progression of both skills and knowledge. *Or Wearing my scarf which* provides inspiring tools to encourage children's personal reflection on their learning; a place for them (or the teacher scribe) to record what they found helpful, thought-provoking, challenging and where their learning might take them to next.

5. What is being taught

In the appendices can be found the SCARF medium term planning for both Key stage 1 and 2 and the Early Years Foundation Stage as well an overview of our Science programmes of study

See policy appendices.

The Early Years Foundation Stage

In the Early Years Foundation Stage, PSHE education is about making connections; it's strongly linked to child-led activities, including play. PSHE is taught through activities that are part of topics, as well as on an individual basis to develop personal skills such as dressing, feeding and toileting. Positive experiences are built through daily opportunities, to share and enjoy a range of different activities. Children are given the opportunity to engage in social activities, as members of a small group or occasionally during whole-school activities.

KS1 and KS2

The SCARF programme divides the year into 6 themed units:

1. Me and My Relationships: includes content on feelings, emotions, conflict resolution and friendships;
2. Valuing Difference: a focus on respectful relationships and British values;
3. Keeping Myself Safe: looking at keeping ourselves healthy and safe
4. Rights and Responsibilities: learning about money, living the wider world and the environment;
5. Being My Best: developing skills in keeping healthy, developing a growth mindset (resilience), goal-setting and achievement;
6. Growing and Changing: finding out about the human body, the changes that take place from birth to old age and being safe.

Children are encouraged to engage in activities that promote an understanding of themselves as growing and changing individuals, and as members of a wider community, based on their own first hand experiences. These activities also encourage pupils to understand how their choices and behaviours can affect others. They are encouraged to play and learn alongside – then collaboratively with – their peers. They may use their personal and social skills to develop or extend these activities. Children are also given the opportunity to make choices about their health and environment and are encouraged to develop a caring attitude towards others.

Within National Curriculum Science in Y2, the children learn that animals, including humans, have offspring that grow into adults. They should be introduced to the concepts of reproduction and growth, but not how reproduction occurs.

Plus, Teachers / Teaching Assistants own resources.

The School's Visitors and Guests Policy is followed in order to ensure that the role played by external visitors is effective and adheres to the school's safeguarding Policy and procedures.

6. How PSHE education, including Relationships Education, is taught

PSHE lessons are taught by their class teacher or teaching assistant once a week in their timetabled PSHE lesson, throughout the whole year in their usual classes, in mixed sex groupings, using a range of interactive teaching methods, e.g. activity sheets, films, songs, online games, drama techniques, role play and class discussion.

As well as dedicated PSHE lessons, further planned curriculum opportunities will take place, these include; Circle time, church, class and whole school assemblies, visitors in school, themed days / weeks and extra-curricular activities.

To ensure that children feel comfortable to learn about a range of topics, we create a safe learning environment using a group agreement at the beginning of lessons or topics. Teachers will answer children's questions factually and honestly in an age appropriate way and respond to any disclosures following the schools safeguarding procedures/child protection policy.

Support is provided to children experiencing difficulties on a one-to-one basis, via our pastoral lead: Mrs Tatton, SENCO Mr Brown or Mental Health Support worker Kathryn Howden. External Support may also be offered, where deemed necessary for example, referral to school nursing team, Family Support worker, EWO, Education Psychologist, Behaviour Support Team and Social Services. Relevant leaflets, websites and posters can be found on display referring pupils to sources of help and advice, alongside suitable books which can be found in the library.

7. How PSHE education is monitored, evaluated and assessed

We use two methods of monitoring and assessing learning within PSHRE at Beresford Memorial School:

SCARF Success

At the end of a unit we consider a range of 'I can' statements, which summarise children's learning against the unit's key learning outcomes.

Wearing my SCARF

This approach encourages children to reflect personally on their learning, (or teacher / teaching assistant scribe). They can record what they found helpful, thought-provoking, challenging and where their learning might take them to next. This also plays a key role in helping us to evaluate the programme.

This method of recording also enables the teacher to make an annual assessment of progress for each child. We pass this information on to the next teacher at the end of each year.

The monitoring of the standards of children's work and of the quality of PSHE education is the responsibility of the PSHE subject lead. Teachers / Teaching assistants are provided with Floor Books to record group work and files to store copies of any individual pieces of work. The work of the subject lead also involves supporting colleagues in the teaching of PSHE education and being informed about current developments in the subject.

8. How the delivery of the content will be made accessible to all pupils

It is not our school's policy to withdraw pupils with special educational needs from PSHE education to catch up on other national curriculum subjects: these aspects of personal and social development are as important to all pupils as their academic achievement, and contribute to it. Lesson plan content will be adapted and extra support provided where necessary to ensure all pupils are enabled to develop key skills, attributes and knowledge developed through the PSHE education programme. Work in PSHE considers the targets set for individual children in their Individual Education Plans (IEPs).

SCARF lesson plans are flexible and allow for teachers, who are skilled in adapting curriculum content to meet the needs of the children in their class, to adjust their content in order to meet the learning outcomes.

Our school ensures that the Relationships and Sex Education (RSE) elements of the PSHE education programme are relevant to all pupils; whatever their gender identity. All pupils learn together about all the changes that someone may experience as they go through puberty to help develop empathy and understanding and to reduce incidences of teasing or stigma. This will also ensure any child that identifies as transgender will have access to RSE that is relevant to the puberty they are likely to experience.

Our school acknowledges different ethnic, religious and cultural attitudes, as well as recognising that pupils may come from a variety of family situations and home backgrounds. These different families are acknowledged through our teaching and the use of resources that promote diversity and inclusion in Relationships Education.

Research shows that, on average, about 4% of pupils will go on to define themselves as gay, lesbian, bi-sexual or pansexual (GLBP). It is possible that some pupils will also have GLBP parents/carers, brothers or sisters, other family members and/or friends. Our PSHE education acknowledges this through scenarios, in a sensitive, honest and balanced consideration of sexuality. This helps create a safe environment for all pupils and staff. The public sector equality duty, created under the Equality Act, requires schools and other public authorities to eliminate discrimination and to advance equality in its everyday business, in the design of its policies and curriculum. Schools have a legal responsibility for eliminating

discrimination; to do this, schools are required to raise pupils' awareness of diversity and promote respectful relationships with those who are different from them.

Other relevant policies include; anti-bullying, equality and diversity, behaviour, safeguarding, SEND and peer on peer abuse.

9. Parental concerns and withdrawal of students

Parents have the right to request that their child be withdrawn from some or all of the non-statutory Sex Education our school teaches but not Relationships Education. They do not have a right to withdraw their children from those aspects of Sex Education that are taught in the statutory National Curriculum Science and Health Education. Parents are invited to view our resources and discuss any concerns with our staff.

Before granting a request to withdraw a child/ren, the head teacher will invite the parent to discuss the request with them to ensure that their wishes are understood and to clarify the nature and purpose of the curriculum. The head teacher will discuss with the parent the benefits of receiving this important education and any detrimental effects that withdrawal might have on their child. This could include any social and emotional effects of being excluded, as well as the likelihood of the child hearing their peers' version of what was said in the classes, rather than what was directly said by the teacher (although the detrimental effects may be mitigated if the parent proposes to deliver sex education to their child at home instead). The school is responsible for ensuring that should a child be withdrawn, they receive appropriate, purposeful education during the period of withdrawal.

Parents should be given every opportunity to understand the purpose and content of Relationships Education and Sex Education. Good communication and opportunities for parents to understand and ask questions about our school's approach help increase confidence in the curriculum.

It is statutory for our school to show parents examples of the resources we plan to use. Please see <https://www.coramlifeeducation.org.uk/>. Ongoing communication with parents about what is planned to be taught and when, is also attached. We advise parents to view the resources in order to support them in carrying out their responsibilities relating to providing RSE at home. It is valuable for a child's development to learn about its own family's values in regards to relationships and sex alongside the information they receive at school.

10. Dissemination of the Policy

This policy has been made accessible to parents, teachers and other school staff, governors through the school website. Anyone wanting a printed copy should make a request to the school office.

Should further information about PSHE education be required, please contact the PSHE education lead Mrs Tatton.

11. Policy Review and Development Plan

The policy will be reviewed every three years, in consultation with parents, teachers and other school staff, governors and pupils.

12. Sources of Further Information

This policy has drawn on:

SCARF plans and the DfE Relationships and Health Education Requirements

This document maps the SCARF lesson plans for Y1 to 6 to the DfE statutory requirements for both Relationships and Health Education (RSHE). Lessons that are not part of the DfE's statutory guidance are included because they ensure a comprehensive PSHE programme. See pages 19+ for Reception plans' mapping

How the mapping works

The left-hand column has coded DfE topics and end-of-primary statements that are covered in whole or part by the SCARF lesson plans, which are listed in the middle column. You'll find the full 67 statements for these DfE codes on pages 2 and 3.

Rows with no codes indicate lesson plans that cover subjects which are *not* DfE requirements but which are included to ensure a complete PSHE programme, including SMSC and British Values.

In the SCARF lesson plan column, '**half-termly unit**' refers to the suggested groups of lessons that the SCARF curriculum has been organised into; this is for those schools that prefer a ready-planned, comprehensive PSHE and wellbeing curriculum.
